

Retain & Retrieve your mission critical emails for several years!!!

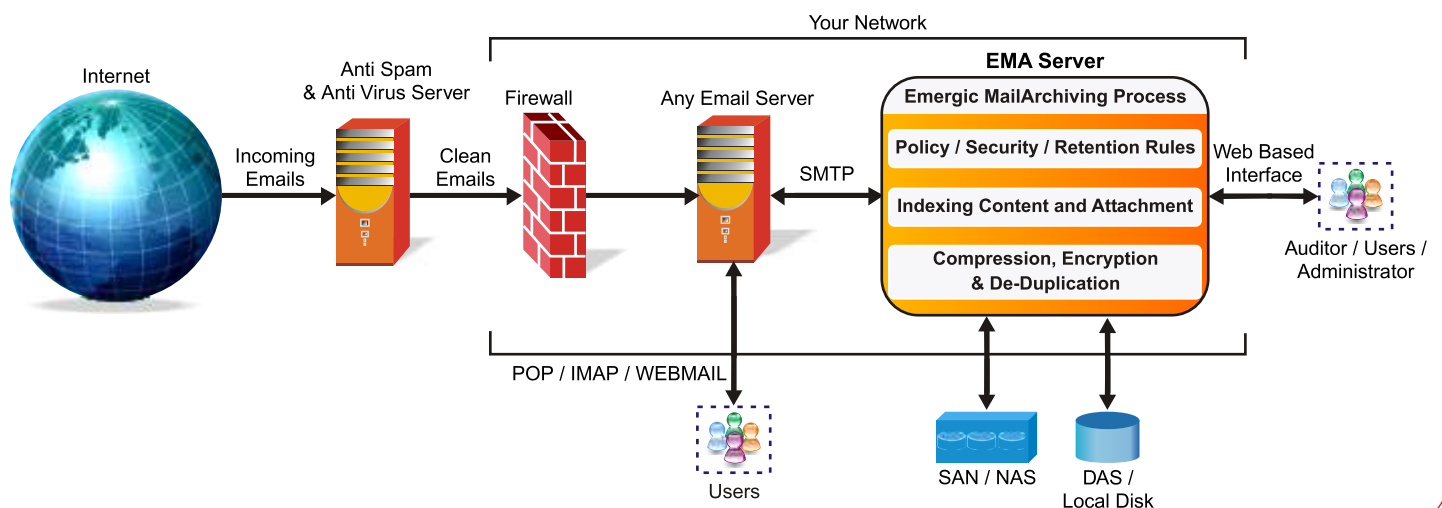

Emergic

M@ilArray

Email Archiving & Compliance solution

In many jurisdictions around the world, the law requires that companies emails be kept for up to seven years. Emergic MailArray (EMA) is designed to help you **comply** with legislation such as the Sarbanes Oxley Act (SOX), Gramm-Leach Bliley Act (GLBA), Freedom of information Act (FOIA), Health Insurance Portability and Accountability Act (HIPPA), IT Act 2000, DARPG & SEBI Guidelines rules regarding electronic communication. The benefits derived apart from compliance purpose is that it helps you have a **backup** of your mission critical emails which can be retrieved easily, thereby reducing the load on your email server. It **insures** your company against any otherwise **potential litigation** by enabling you retrieve emails sent **5-7 years** back by any employee, since Court of law treats emails as proof of evidence.

Emergic MailArray Setup

How Emergic MailArray Works

- Emails can be pushed or pulled from any Email Server (Exchange / Lotus / Linux)
- Emails are indexed, compressed & stored in encrypted format on the storage device
- End-Users and Auditors can connect to a web based interface for search and retrieval

Features
